

MANAGED ACCOUNT SERVICE

Forex managed account is a investment service that gives investors a chance to diversify their investments and earn from the Global forex market without having the skill to do so and a chance for experienced traders with robust strategies to earn additional income by managing clients trading accounts.

HOW IT WORKS

You sign up a trading account with one of our prime forex brokerage partners who is regulated by the Capital Markets Authority (CMA). The broker in turn will provide you with an MT4 application from which you will use to trade the global forex markets using your funds held by the forex brokerage company under your name and held in trust by local top tier banks. This is where we come in as TRADE SENSE Ltd. Since you don't have the expertise of trading the forex market, we will run our robust trading system on your funds. Trades will be executed from our master account and the trades AUTOMATICALLY copied to your trading account and all you have to do is follow up the statements via your client login or your emails which you will be receiving everyday past midnight.

FUND CONTROL

The clients have sole control of their deposits in the forex account held by our prime forex brokerage partners. The funds are protected by local top tier banks so incase of any eventualities the funds will be accounted for. The only movement of clients' funds is between their personal trading account and bank account. The only role of TRADE SENSE Ltd is to run its robust strategy on client's funds depending on the market opportunities available.

FUND PERFORMANCE

Our main aim is to generate between 20%-25% (Minus all fees) return on Investment (R.O.I) annually.
